

Instructions for the use of file server by employees of KSTU.

General information:

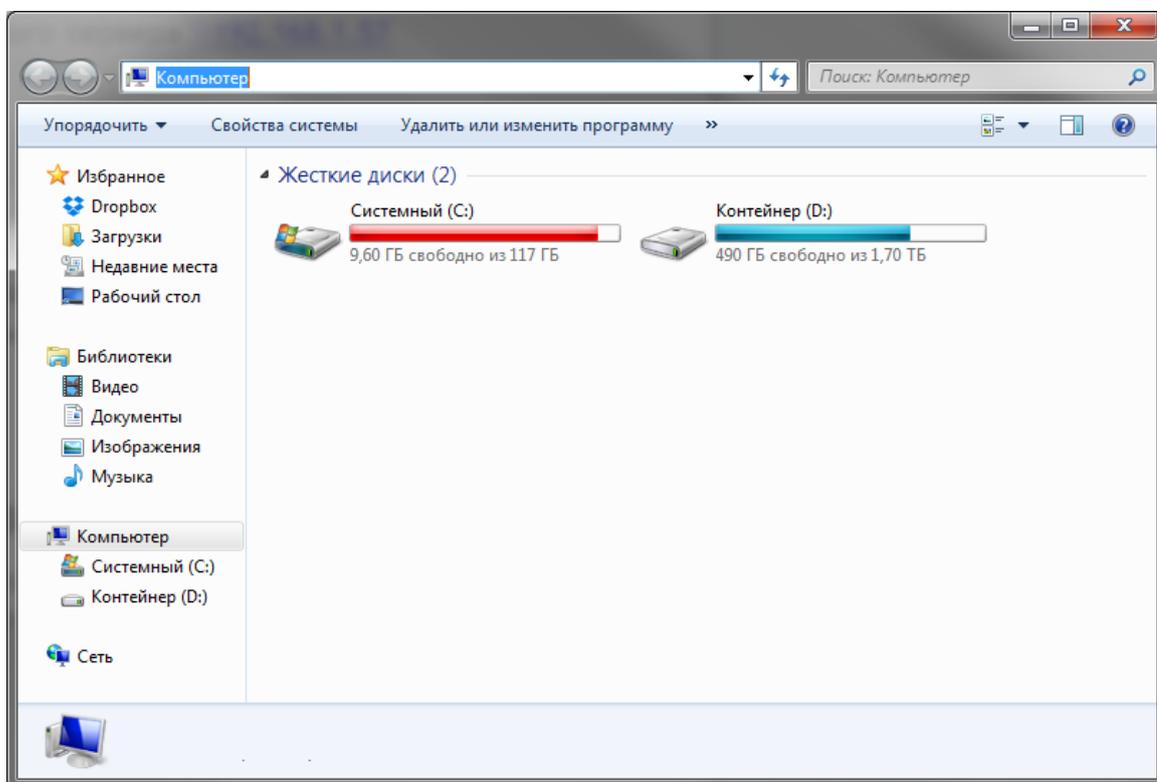

- 1) the Name of the file server \\fs.unet.kstu.kz
- 2) the IP address of the file server [\\192.168.1.57](http://192.168.1.57)

For receiving the resources on the file server of KSTU, as well as gain access to it You need to contact 205 auditorium of the Main building (you should have your ID).

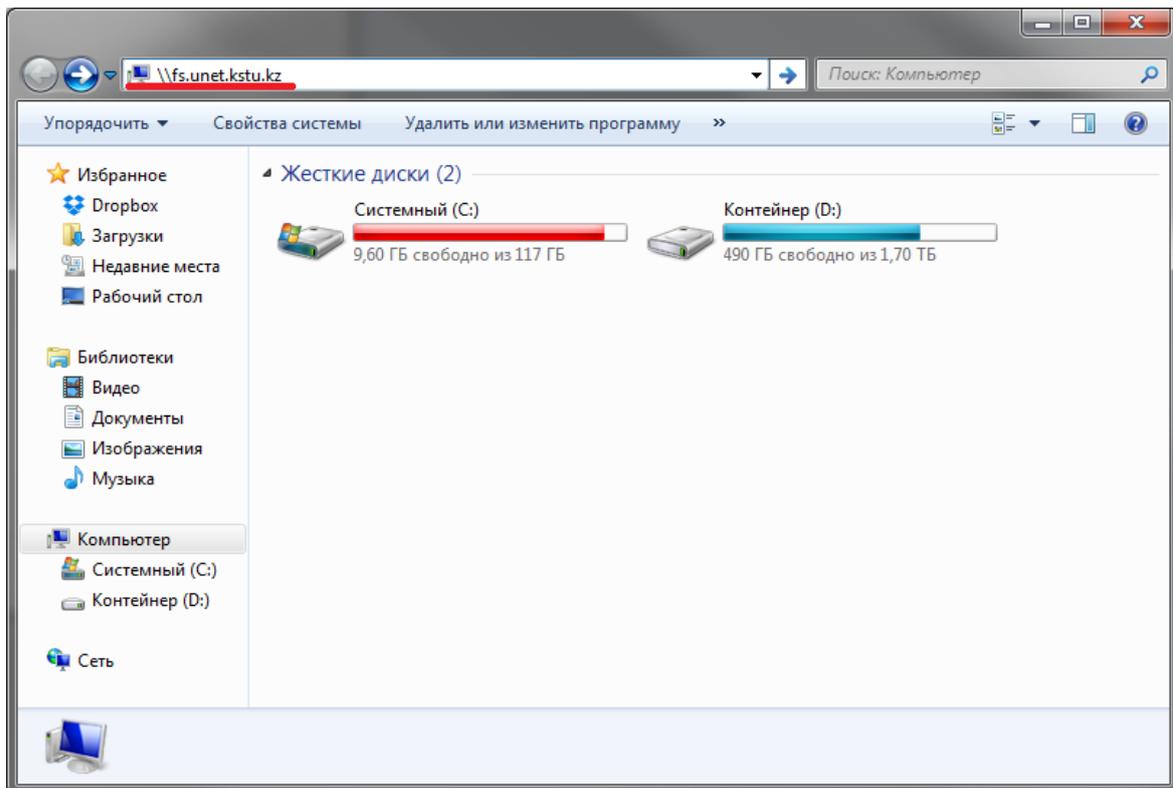

Using file server.

Access to the file server can be obtained as follows from any computer connected to the LCN of KSTU:

- 1) Open my computer

- 2) In the address bar type \\fs or \\fs.unet.kstu.kz or [\\192.168.1.57](http://192.168.1.57)

3) Enter your credentials.

For example:

User name: UNET\a.ivarov

Password: *****

Note # 1: Access Your resources from this computer will remain until the system is rebooted. Therefore, upon completion of the work with Your resources reboot the system for which You worked.

Note # 2: If you tick the "Save password" or "Save credentials", then access to the resources of the computer will remain forever without being prompted for a password. In the future, any person who came with this computer into a file server will get full access to Your data.

4) Find and use your resources.
