

Report
on holding an event to eradicate corruption in the student environment on the topic:
"Formation of anti-corruption consciousness in the youth environment and prevention of
anti-corruption actions in KTU"
in group VT-18s, curator Nurligenova Z.N.

On November 26, 2020, in the group VT-18c of the Faculty of Innovative Technologies on the Microsoft Teams platform (code: wzmecjd), an event was held to eradicate corruption in the student environment on the topic: "Formation of anti-corruption consciousness in the youth environment and prevention of anti-corruption actions in Kartu".

The purpose of the curatorial hour: the formation of anti-corruption consciousness in the youth environment and the prevention of anti-corruption actions in KTU.

Tasks of the curatorial hour:

- consider the concepts of anti-corruption consciousness;
- to analyze anti-corruption policy as a factor in the formation of anti-corruption consciousness.

Among the global problems of our time, on the solution of which the further development of the world community in the new century depends, one of the most acute is the problem of corruption. In the context of globalization, it has acquired a new quality and transnational forms, and it is the most serious contradiction of globalization, one of the challenges to world development. Among the issues most acutely facing modern education and upbringing, responsibility for the new generation is considered the most trending. The goal of education and upbringing today is professionally competent, proactive, creative youth, endowed with a sense of duty and responsibility to society. In modern society, education is carried out mainly through special pedagogical systems, which also carry out the formation of an anti-corruption culture through a set of educational measures. In this regard, the topical topic "Formation of anti-corruption awareness among young people and prevention of anti-corruption actions in the KTU" allowed answering the questions: "What is corruption? What kind of corruption laws do we know? Do we know the legislation of the Republic of Kazakhstan on combating corruption?" and many other questions.

Corruption itself is a social vice. On the basis of sociological research carried out by some scientists, it was revealed that out of 31 problems, the first place among young people is inflation, and the second is corruption. Young people are concerned about the corruption-generating component in society, so this topic aroused interest and heated discussion among students. The main speakers on this topic were students of the VT-18s group Stetsenko Aleksey, the topic "Corruption: definition and history", Tsai Denis, the topic "Law of the Republic of Kazakhstan" On combating corruption "dated November 18, 2015", Serimbetov Daniyar "Formation and prevention of anti-corruption consciousness in the youth environment of the Republic of Kazakhstan".

Students of the VT-18s group, Kirill Ageev, Valery Ligai, Artem Sazonenko, Daniil Dvoretzky, took part in the discussions.
