Vladimir Seliverstov and Nikita Kantorov are two students of the specialty "Metallurgy" (student group Met-17-4). They took part in the International Research Competition "Student Scientific Achievements" held in November 2018 in the city of Penza (Russia). They demonstrated research work on the topic "Characteristics of charge materials for silicon smelting". The head of the work is a senior lecturer of the Department of "Nanotechnology and Metallurgy" Sidorina Elena Anatolyevna. Our students were awarded Diplomas of the winner of the 1st degree in the section "Technical Sciences"!

Kasenova Damel Yesengeldievna and Zhatakbayev Boranbay Dulatuly are two students of the specialty "Metallurgy" (student group Met-18-4) took part in the VI International Research Competition "Achievements of University Science 2018". The competition was held on November 5, 2018 in Penza (Russia) The students presented a research paper entitled "Investigation of the possibility of using low-potential heat flows". The work was carried out under the supervision of Candidate of Technical Sciences, Associate Professor of the Department of' Nanotechnology and Metallurgy "E. P. Naboko.

Diana Arystanova, a student of the student group Met-14-1, took part in the Republican subject Olympiad among university students in the specialty 5B070900 "Metallurgy". The Olympiad was held in April 2018. Diana Arystanova was awarded a Diploma of the 3rd degree as a result of this competition.

Marina Kudryashova, a student of the specialty "Materials Science and technology of new materials", took part in the Republican competition of research works in the direction "Materials Science and technology of new materials". The work was carried out under the guidance of the senior lecturer of the Department of "Nanotechnology and Metallurgy" Medvedeva I. E. The work of the student was awarded a Diploma of the III degree.

Askar Okubayev was awarded a Diploma of the III degree based on the results of the Republican competition of research works in the field of "Metallurgy".

B. Z. Dzholymov, a student of the specialty "Metallurgy", was awarded a diploma for taking the 1st place in the Republican competition for the best scientific work of students in natural, technical and humanitarian sciences "Scientists of the Future».

A student of the specialty "Metallurgy" Mazhitova Dinara was awarded a scholarship named after Sh. Yesenova in 2018.

Orynbasarov M. and Dyusenbinov D. students of the specialty metallurgy were awarded with diplomas of the 3rd degree according to the results of the Republican subject Olympiad. The head of the team representing Karaganda State Technical University was PhD Zholdubayeva Zh. D.
