

## **Curatorial hours "Integrity-the legacy of the Great Abai"**

**15.05.2020.** Online curatorial hours on the topic: "Integrity-the legacy of the Great Abai", as well as online video lectures "Hours of integrity" are posted on the social network page of the college. What is Integrity? How to achieve it? These are the issues that concern all participants of the educational space today, without exception. The purpose of the event, dedicated to the 175th anniversary of the great poet, writer, public figure, the founder of modern Kazakh written literature Abay Kunanbayev, is the formation of universal values among the younger generation, education of the principles of honesty, integrity and raising the level of culture. During the curatorial hour, students watched a video of Ganizhan Asanuly, Deputy Director of the Integrity Department of the Anti-Corruption Agency. The speakers noted that the Words of edification of Abai are of great importance for the younger generation. Modern youth, listening to the poet, tries to adhere to the traditions and customs of their people. This is how we preserve the national code of the Kazakh people, which we pass on from generation to generation. Students were provided with full information on anti-corruption measures (student coverage -250 people.)
