Independent Agency For Accreditation and Rating (IAAR)

The main object of the rating research is the educational program of the universities of the Republic of Kazakhstan by levels (BA, MA, PhD) and directions, and the subject is quantitative and qualitative indicators for key parameters of rating indicators. The rating is formed using an electronic program for ranking educational programs, available online, based on the results of verification of the university's supporting documents according to the indicators "High concentration of talented students, teachers and researchers", "Academic mobility", "Competitiveness of graduates" available in the cloud, as well as on the basis of analysis of data on databases in accordance with the indicator "Competitiveness of graduates".

N⁰	Code and name of the specialty	2018	2019	2020	2021			
THREE
