Much has been written about the role of personality in history. There are examples when individuals possessed colossal destructive power for all of humanity or an individual state. However, the world knows also outstanding people who, thanks to their own exclusivity, managed to direct social forces to build the foundations of a new statehood and ensured their native country a worthy place in the world community. It is a matter of pride that one of such personalities is Nursultan Nazarbayev.

According to Doctor of Philosophy, Professor Abdesh Kalmyrzaev, the President is distinguished by such qualities as diligence, talent, dedication, energy, the ability to combine study with practice, deep knowledge of the pulse of life, accurate hitting the top ten in determining the interests and aspirations of his people. The fateful era at the end of the 20th century demanded such a leader as Nursultan Abishevich Nazarbayev, who came out of the midst of the people themselves, who know very well and are deeply aware of the historical responsibility to their native nation and all the inhabitants of Kazakhstan during the construction of an independent state.

Of course, our country has gone a colossal path of political and economic development. Institutions necessary for the normal functioning of market relations were created, a legislative basis for the development of the economy was provided, large-scale work was carried out to promote industrial and innovative processes, a powerful business sector was formed, and so on.

However, as new heights are reached in the state, there is a growing need for further modernization of the political system, development of a systematic approach to the implementation of new democratic reforms and imparting dynamism to them. That is why the First President set a strategic task - to build a fundamentally new model of the political system in the country.

Today, thanks to its clear and verified foreign policy line, Kazakhstan is a respected and authoritative member of the world community, thanks to the far-sighted policy of the First President of the Republic of Kazakhstan.

In this regard, at the Department of "History of Kazakhstan" of the Karaganda Technical University on October 28, 2021, the annual competition "NAZARBAYEV N.A. - PERSONALITY, POLITICIAN, LEADER ". 21 works were submitted for the competition.
