

Information about preparatory courses

Karaganda Technical University invites school graduates to preparatory courses operating at the university.

The training program includes all UNT subjects, namely mathematics, physics, biology, chemistry, geography, history of Kazakhstan, reading literacy (Russian and Kazakh languages). Training is carried out in the state and Russian languages, in an online format on the Teams educational platform.

The work of the preparatory courses is carried out on a paid basis - 4950 tenge per one subject per month, the minimum number of subjects is 1, the number of lessons is twice a week.

The number of students in a group must be at least 10 people. Classes are conducted by experienced, highly qualified teachers.

More information can be found at: Karaganda, N. Nazarbayev ave., 56, first building, room 206a.

Telephone number for information: 56-17-98, 87751042662.

Cost of one subject per month	Minimum number of subjects	Number of lessons	Telephone number for information
4950 tengr	1	Twice a week	56-17-98 87751042662
