A lot has been written about the role of personality in history. There are examples when individuals had a tremendous destructive force for all of mankind or a separate state. However, the world also knows outstanding people who, thanks to their own exclusivity, managed to direct public forces to build the foundations of new statehood and provided their native country with a worthy place in the world community. It makes pride that one of these personalities is Nursultan Nazarbayev.

According to the Doctor of Philosophy, Professor Abdesh Kalmyrzaev, the president is distinguished by such qualities as hard work, talent, determination, energy, the ability to combine study with practice, a deep knowledge of the lifetime, accurately in the "ten" in determining the interests and aspirations of their people. The fateful era at the end of the 20th century demanded such a leader as Nursultan Abishevich Nazarbayev, who emerged from the Glushch of the people himself, who knows perfectly and deeply aware of historical responsibility to his native nation and all the inhabitants of Kazakhstan during the construction of an independent state.

Of course, our country has traveled a colossal path of political and economic development. The institutions necessary for the normal functioning of market relations were created, the legislative basis for the development of the economy was ensured, large-scale work was carried out to promote industrial and innovative processes, a powerful entrepreneurial sector was formed and so on.

However, as new heights reach the state, the need for further modernization of the political system, the development of a systematic approach to the implementation of new democratic reforms and giving them dynamism is growing. That is why the first president set a strategic task - to build a fundamentally new model of the political system in the country.

Today, thanks to its clear and verified foreign policy line, Kazakhstan is a respected and authoritative member of the world community, thanks to the far -sighted policy of the first president of the Republic of Kazakhstan.

In this regard, at the Department of History of Kazakhstan, Karaganda Technical University on October 28, 2021, the annual competition "Nazarbayev N.A.
