

## Laboratory complex "Wireless networks Wi-Fi"

The laboratory complex "Wireless Wi-Fi Networks" is a workplace organized on two laboratory tables. The workplace is equipped with laptops and a desktop rack with network and microcontroller equipment.

The laboratory complex is used to study such disciplines as: "Wireless communication technologies", "Fundamentals of building and modeling communication systems", "Electronics and circuitry of analog devices".

The laboratory complex consists of:

- laboratory table - 2 pc;
- racks with equipment - 1 pc;
- educational laptop - 3 pc;
- microcontroller set - 1 pc;
- set of connecting cables - 1 pc;
- a set of antennas - 1 pc;
- a set of wireless adapters - 1 pc;
- a set of patch cords - 1 pc;
- laptop charger - 3 pcs;
- software package - 1 pc;
- product passports and guidelines - 1 pc.
