

## Open seminar on the day of military communications

On October 31, 2021, at the Karaganda Technical University at the Department of Communications Systems Technologies, the head of the department Yugay V.V., senior lecturer Belik G.A. and senior lecturer Gavrilova M.A., together with the students, held a seminar dedicated to the Day of Signal Corps in Kazakhstan.

The first speaker at the seminar was student Ahmet Kabiden. The topic of his report was the history of the communications troops of Kazakhstan. In his speech, he emphasized the importance of the holiday and the troops in general, through the history of the army in the past during the battles.

After that, student Orlov Pavel made a report on the biography of Major General Mubarek Orynbeкович Orynbeков, who stood at the origins of the creation and development of the military communications system in the Kazakh army. Under his leadership, experienced officers solved a number of critical tasks in developing the necessary legal and regulatory framework, training personnel and modernizing communications equipment.
