

Integrity School Report

As part of the activities of the School of Integrity for students of the Karaganda Technical University named after A. Saginov, a set of educational, informational and organizational events was carried out. The activities of the School of Integrity are determined by the need to modernize public consciousness (formation of an anti-corruption culture). To achieve this goal, the following activities were carried out:

On April 21, 2022, within the framework of the "school of integrity" with the students of the IT-19-1 group, a round table was held on the topic "Integrity is the legacy of the great Abai". The purpose of the round table is aimed at developing acquaintance with the life and work of A. Kunanbaev, understanding the foundations of integrity in the poems of the great poet, deepening the meaning and significance of the words of the great Abai for the present.

Every nation has a spiritual and moral support. Almost all civilized states can boast of outstanding historical figures. Among them are politicians, statesmen and public figures, generals, writers and poets, artists and cultural figures. The Kazakh public can also safely name a whole group of its brightest representatives. A special place among them is occupied by Abay Kunanbaev. In the minds of the Kazakh people, his creative heritage and works teach wisdom, justice and honesty. Preservation of the poet's cultural heritage is everyone's duty! As Kassym-Jomart Tokayev noted: "Abai's recognition is self-knowledge. Self-awareness, constant growth, the study of science and knowledge-wisdom. Abai's words should become a guide for generations" "Students defended and discussed their reports within the approved topic.

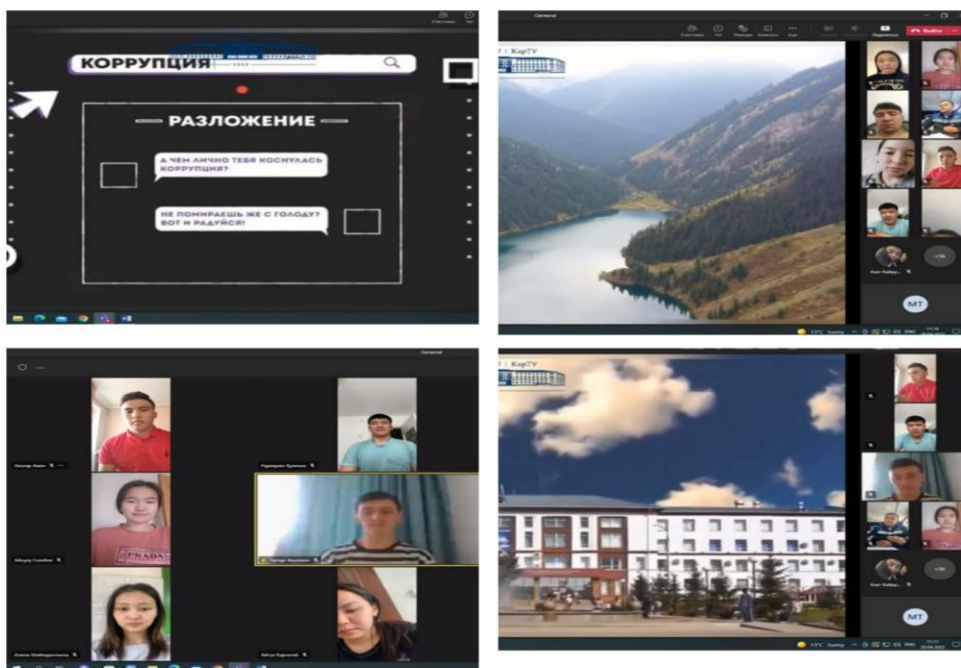

In the final part of the round table, a number of specific proposals were adopted to deepen the study of the great poet's heritage and effectively implement the results obtained in the educational process
