No	Name of the group of educational programs CODE	Name of educational program	Number of grants by RK	Passing grade
1	Information technology	Information systems Computing technology and software IT - medicine	150	28
2	Information security	Information security systems	150	25
3	Communications and communication technologies	Radio engineering, electronics and telecommunications	0	0
4	Chemical engineering and processes	Chemical technology of organic substances	50	25
5	Materials science and technology	Materials science and technology of new materials	5	0
6	Electrical engineering and power engineering	Electric power industry	25	25
7	Heat power engineering	Heat power engineering	60	27
8	Electrical engineering and automation	Automation and management	20	25
9	Mechanics and metal processing	Mechanical engineering Technological machines and equipment (by branches) Digital technologies in mechanical engineering	50	25
10	Automotive vehicles (Transportation Engineering and Technology)	Transportation, transport equipment and technologies	20	25
11	Mining and minerals extraction	Geology and exploration of mineral deposits Mineral enrichment Mining Surveying Construction of mining enterprises and underground facilities	50	25
12	Metallurgy	Metallurgy	38	28
13	Oil and gas	Oil and gas	32	25
14	Architecture	Architecture	3	25

15	Urban planning, building works and civil engineering	Construction Transport construction Production of building materials, products and constructions	50	25
16	Cadastre and land surveying	Geodesy and cartography	10	25
17	Standardization, certification and metrology (by branches)	Standardization and certification (by branches)	40	25
18	Sanitary and preventive measures	Life safety and environmental protection	0	0
19	Transport services	Organization of transportation, traffic and operation of transport Logistics (Transport)	50	32
