

The report of the "School of Integrity"

On February 27, 2023, teachers of the Department of the Assembly of the People of Kazakhstan and Socio-humanitarian disciplines Sadvakassova R. M., Seidinova M. A., Zhumatova G. M. held an "hour of integrity" for university students within the framework of the "School of Integrity". The main purpose of the honesty watch is to explain to young people the importance of the values of honesty, justice, integrity, and trust.

Honesty is the basis for the formation of an anti-corruption model of consciousness and behavior. A person with honesty avoids nefarious intentions in any environment. Young people play an important role in shaping an anti-corruption culture. The introduction of anti-corruption standards of conduct from an early age eliminates this social evil.

In combating corruption, young people should be at the forefront of this matter, which mobilizes the efforts of all youth associations and non-governmental organizations.

Every citizen of Kazakhstan, every family should understand that the fight against corruption is the business of the whole society. No matter what methods of fighting corruption are used, everything is in vain, until such qualities as honesty, patriotism, and decency are assimilated in every person.

On September 1, 2023, as part of the activities of the "School of Integrity", teachers of the APK and SRS departments gave lectures to first-year students on the topic "Formation of principles of integrity and anti-corruption culture". The lecture was held for 1st year students of all faculties of the Saginov University.

During the lecture, students were introduced to the goals, objectives, and work plans of the Sanaly Urpak student Club and the School of Integrity. During the lecture, the anti-corruption standards of the university, the code of honor of students, the main tasks and functions of the student service center, the ethics council, their areas of application and the organization of the work regime were consecrated.

Special attention was paid to causing material damage, intentional destruction or damage to other people's property and the main types of liability for these offenses and offenses. <https://www.instagram.com/p/CxpPx9DooCG/?igsh=MTc4MmM1YmI2Ng==>
